

# Help your community by SkyMining!

Act now, and save **\$1,200** by signing up before Solar Credits are reduced on 01 July.

## Option 1

Buy a SkyMine from 2-100kW, and \$100/kW will go towards a local community organisation of your choosing:

- 15-20% annual yield on invested capital
- Choice of 3 systems to suit your requirements and budget
- Certified local installers
- High quality certified modules and inverters with class leading warranties
- Includes site assessment and connection to the grid
- Equipment finance available

## Option 2

Let SkyMining rent your roof or part of your property, and the annual rental will be donated to a local community organisation of your choosing:

- 30kW systems only
- Requires 250m<sup>2</sup> of roof space or paddock area
- 20 year lease indexed to CPI
- Low maintenance, hassle-free, ongoing contribution to your community
- The system becomes yours after 20 years, and is guaranteed to still be producing **80%** of its original output, giving you over **35,000kWh** of **free electricity!**

Call us now on **1300 SKYMINE** or **0432 228 781**, or e-mail Tom directly at [tom.gleeson@skymining.com.au](mailto:tom.gleeson@skymining.com.au) to organise a site inspection and quote
